Dealer notes

The 2019 GMC Canyon 4WD SLE arrives with no accidents or damage reported on CARFAX, and for a midsize truck that's genuinely earned its reputation as the enthusiast's pick in this class, a clean history like that is worth going out of your way for. The 3.6L DI DOHC V6 with Variable Valve Timing delivers 308 horsepower and 275 lb-ft of torque, an output that outmuscles most competitors in the segment and gives this Canyon the kind of confident, eager power that makes it feel closer to a full-size truck than a midsize one. Four-wheel drive with an 8-speed automatic puts that power down with real authority, whether you're navigating a job site or an Illinois snowstorm. Onyx Black with a chrome rear bumper, LED signature headlamps, and a locking EZ-Lift and Lower tailgate gives this Canyon the kind of clean, purposeful presence that stands out in a crowded truck lot. Climb into the Jet Black interior and the SLE trim covers the essentials with real thoughtfulness. A leather-wrapped steering wheel, front reading lamps, a custom floor console, an overhead console, cruise control, and a back-up camera make daily driving genuinely comfortable, while heated power-folding outside mirrors with an integrated spotter mirror add real confidence when you're navigating close quarters or backing up to a trailer. The cargo area cab-mounted lamp with a switch on the center bank means loading and unloading after dark stops being a hassle. A 6-speaker audio system with HD Radio, satellite radio, smart device integration, and WiFi hotspot keep every job and every drive connected. Front fog lamps and windshield shade band round out a truck that thinks through the small details as much as the big ones. A clean-history Canyon SLE with this much horsepower, real 4WD capability, and this level of comfort equipment is exactly the kind of midsize truck that experienced buyers recognize as smarter than the segment leader. Come see it at Carlux in Waukegan and feel the difference across Chicagoland.
