Dealer notes

High payload and towing capacities and a wide variety of configurations and special-edition models help make the 2006 Ford F-250 Super Duty a viable option for those who need a hard-core pickup civilized enough for everyday use. Thanks to a fully boxed front frame clip and revised engine choices, the Ford F-250 can haul an extra 500 pounds. Under the hood, the base-level 5.4-liter Triton V8 gets a slew of new technology lifted from the F-150 line, including three-valve cylinder heads and variable valve timing responsible for a bump in output to an impressive 300 horsepower and 365 pound-feet of torque. Antilock four-wheel disc brakes are standard. The Super Duty also offers power-adjustable pedals. The Ford F-250 Super Duty is actually quite civil on the highway, as it soaks up heavy ruts and bumps with ease while providing a quiet ride. The coil spring suspension and large-diameter wheels have reinvigorated the platform, as handling is crisp and precise on the open road or on tighter city streets. The seats are comfortable and supportive so five or six adults can ride inside with little problem. The center console bin is big enough to hold a laptop computer. Great truck. Tows excellent, good mileage, well made! #SkiptheDealership - Call today - we work with all credit types - se habla Espanol!
