Dealer notes

2022 PORSCHE 911 TURBO S | 1016 INDUSTRIES CARBON FIBER | STAGE 3 TUNED | $105K INVESTED Topline Auto Group is proud to present this extensively modified 2022 Porsche 911 Turbo S, finished in stunning Jet Black Metallic over a sophisticated Graphite Blue interior. With over $105,000 invested in performance, carbon fiber aerodynamic enhancements, custom forged wheels, and protection, this 992-generation Turbo S takes an already extraordinary platform to another level. At the heart of this build is a Stage 3 engine tune complemented by upgraded CSF intercoolers, turbo inlet hoses, BMC F1 air filters, and PDK transmission tuning. A complete Fabspeed exhaust system, including Turbo Sport headers, sport catalytic converters, and a valved exhaust, delivers an enhanced driving experience and an unmistakable exhaust note. Visually, this Turbo S stands apart with an extensive 1016 Industries 9Design carbon fiber aerodynamic package, featuring a carbon fiber hood, front aero lip, side skirts, side intakes, rear diffuser, and rear spoiler. The aggressive exterior is further complemented by a set of staggered 20-inch/21-inch Brixton Forged CM5-RS monoblock wheels and a KW H.A.S. lowering kit, creating a purposeful stance. Factory carbon fiber roof and mirror caps complete the exterior presentation, while full-vehicle STEK USA paint protection film helps preserve the finish. Combining Porsche's renowned engineering with premium aftermarket components, this carefully curated Turbo S offers a distinctive blend of performance, design, and exclusivity.
