### Dealer notes

If you are searching for a dependable, trail-ready midsize truck that balances everyday usability with proven capability, this 2010 Ford Ranger 4WD 4dr SuperCab 126" XLT is an exceptional choice. Finished in a clean and classic Oxford White, this pickup represents the enduring appeal of Ford's legendary compact truck platform. With its versatile SuperCab configuration and rugged stance, this Ranger is ideal for drivers who demand authentic truck utility and off-road readiness without the cumbersome footprint of a full-size vehicle. Under the hood lies the powerhouse of this pickup: a robust 4.0L SOHC V6 engine that delivers the reliable horsepower and torque necessary for both daily commuting and demanding tasks. Power is routed through a commanding Four Wheel Drive (4WD) system, giving you the traction needed to conquer challenging terrain and inclement weather. Further enhancing its utility is a 4.10 axle ratio, a feature that optimizes low-end torque to assist with towing and hauling, making this truck as practical on the job site as it is on weekend adventures. Inside, the cabin features a functional and comfortable environment styled in a Medium Dark Flint color scheme. This model is thoughtfully equipped with essential features designed for safety and convenience, including daytime running lamps for increased visibility on the road and a pre-installed front license plate bracket. Combining time-tested mechanical durability, a potent V6 powertrain, and iconic styling, this 2010 Ford Ranger XLT 4WD stands ready to tackle your daily drives and outdoor pursuits for years to come.
