Fuel economy: — city / — highway MPG
Dealer: Zoom Classic Cars, North Haledo, NJ 07508
Dealer phone: 844-496-6622

Dealer notes

Zoom Classic Cars present this 2002 Chevrolet Corvette C5 Convertible. Here is an excellent opportunity to own a beautiful 2002 Chevrolet Corvette Convertible finished in the highly desirable Magnetic Red II Metallic, one of the most distinctive colors available on the C5 Corvette. The combination of the deep red metallic exterior, black leather interior and black convertible top gives this Corvette a sophisticated, classic appearance that looks particularly good with the top down. Even better, this is a four -owner Corvette, with the current owner having purchased it from Corvette Mike\'s this year and putting only 575 miles on the car since. It has clearly been enjoyed as a collector/enthusiast car for most of its life rather than used as everyday transportation. Under the hood is Chevrolet\'s legendary 5.7-liter LS1 V8, producing 350 horsepower, equipped with a Z06 intake and paired with the highly desirable 6-speed manual transmission. The LS1 provides plenty of effortless power, while the six-speed gives the driver considerably more involvement than an automatic-equipped C5. Adding to the experience is a Corsa exhaust system, giving the LS1 an excellent V8 soundtrack and an appropriately aggressive character without making the car unpleasant to drive on the highway. The black leather interior is in excellent condition and is equipped with a terrific collection of C5 features, including dual power seats, power telescopic steering wheel, driver memory, dual-zone air conditioning, Heads-Up Display and Bose premium audio. The Magnetic Red II Metallic paint is in overall excellent condition, with a deep, glossy finish that presents extremely well. As part of our inspection, we identified one localized cosmetic blemish on the left rear corner of the bumper cover. It consists of a scrape/scuff with some paint loss and localized cracking, along with a couple of smaller superficial marks in the immediate area. The blemish is clearly shown in the accompanying close-up photographs. Our company believes in being completely transparent about the condition of our cars, so we have photographed and disclosed this item rather than simply calling it a scratch. It is a cosmetic issue only and does not affect the operation or drivability of the Corvette. The owner can address the issue prior to delivery if negotiated. Importantly, everything on the car works as it should, and the Corvette has successfully passed a recent Massachusetts safety inspection. The car runs, drives and handles exactly as expected, with the LS1 providing strong performance, the six-speed making the car exceptionally enjoyable to drive, and the Corsa exhaust providing the sound that makes every drive a little more entertaining. The C5 Corvette represents an important chapter in Corvette history. The LS1, lightweight body, independent suspension, rear transaxle configuration and sophisticated chassis helped make the fifth-generation Corvette a genuine performance car while retaining the comfort and usability expected from America\'s sports car. Today, the C5 is increasingly appreciated by enthusiasts who recognize that it offers an outstanding combination of performance, styling, reliability, affordability and collectability. And among the many C5s available, a low-mileage convertible with a 6-speed

manual transmission and an unusual factory color such as Magnetic Red II Metallic is an especially appealing combination. This isn't an over-modified Corvette or a project car. The Z06 intake and Corsa exhaust are tasteful performance upgrades that complement the LS1 rather than fundamentally changing the character of the car. The fact that the current owner has driven it only approximately 600 miles makes it an especially interesting car for the enthusiast looking for a C5 to enjoy now and potentially preserve for the future. If you've been searching for a C5 Corvette convertible with the right combination of color, equipment, transmission and careful ownership history, this one deserves a close look. Stored in MA, this "Garage Queen" has always been garaged and comes with clean title in the owner's name and the clean Carfax as shown. This is the kind of Corvette that is equally at home being enjoyed on a beautiful summer afternoon or carefully tucked away in a collection for the next generation of Corvette enthusiasts. Please call Jeff to arrange a viewing and test drive. Thanks for Looking. Price does not include \$0 processing fee
