Dealer notes

STATE CERTIFIED REBUILT TITLE – 2019 Dodge Charger Scat Pack RWD – ONLY 24,295 MILES – ONE OWNER – DAYTONA EDITION – 6.4L HEMI Turn heads in this extremely low-mileage 2019 Dodge Charger Scat Pack RWD, finished in the gorgeous Octane Red Pearlcoat over a Black interior. With only 24,295 miles, one-owner history, the legendary 6.4L HEMI V8, Daytona Edition Group, Dynamics Package, power sunroof, and Harman Kardon® premium audio, this is a seriously desirable Scat Pack configuration. This Charger carries a State Certified Rebuilt Title, and we want to be completely transparent about its history and current condition. The previous incident involved the right-front side and was more extensive than some of the rebuilt vehicles we sell. The structural bodywork and repairs were completed very nicely, and we are currently working on perfecting the paint finish in the repaired area. Another positive is that the vehicle was driven approximately 1,500 miles after the incident, providing additional real-world driving history following the repair. Vehicle History & Condition ' STATE CERTIFIED REBUILT TITLE ' Only 24,295 Miles ' ONE OWNER ' Previous Right-Front-Side Collision ' Previous Damage Was More Extensive ' Bodywork Completed Very Nicely ' Paint Finish on Repaired Side Currently Being Perfected ' Approximately 1,500 Miles Driven After the Incident ' State Inspected & Certified ' Extremely Low Mileage We don't want to minimize the previous history. The right-front side sustained fairly extensive damage, which ultimately resulted in the rebuilt-title status. The actual bodywork was completed very well, and we're currently addressing the paint condition on that side to get the finish where we want it before delivery. The Charger was also driven approximately 1,500 miles following the incident, which provides useful real-world history after the repair. Why This Vehicle Stands Out ' ONLY 24,295 MILES! Add the Daytona Edition Group, Dynamics Package, Harman Kardon audio, sunroof, and one-owner history, and this becomes a particularly attractive configuration. This 2019 Dodge Charger Scat Pack has only 24,295 miles, ONE OWNER, and carries a State Certified Rebuilt Title. We want buyers to understand exactly what they're considering. The previous collision involved the right-front side and was fairly extensive. The vehicle was subsequently repaired, and the bodywork itself was completed very nicely. We are currently working on the paint finish in that repaired area to bring its appearance up to our standards. Another important part of the history is that approximately 1,500 miles were driven after the incident, giving the vehicle additional real-world driving history following the repair. The previous history is reflected in the value, but you're still getting an exceptionally low-mileage 6.4L HEMI Scat Pack with the Daytona Edition Group, Dynamics Package, Harman Kardon premium audio, power sunroof, red performance brakes, and a gorgeous Octane Red exterior. For someone comfortable with its fully disclosed history, this is an opportunity to get a 24K-mile, one-owner, heavily optioned Scat Pack for substantially less than a comparable clean-title example. +P Be sure to check out our Facebook profile to see how many happy customers we've had!
