Dealer notes

Ram 2500 HD Cummins Lifted Pickup Truck " This one-owner, low-mileage beast has only 46,000 miles and is powered by the legendary 6.7L Cummins turbo diesel engine. It has been professionally upgraded with a BDS long-arm suspension lift system, upgraded Fox shocks, and sits aggressively on 40-inch x 24-inch Terrain tires paired with 24-inch Fuel black and milled two-piece wheels. This Ram is equipped with dual Fox steering stabilizers, six-passenger seating, aftermarket touchscreen stereo, factory trailer brake control, floor-shift 4x4, fold-out towing mirrors, spray-in bedliner, LED aftermarket tail lights, and custom Fab Fours front and rear bumpers with integrated LED light strips. Additional lighting includes Rigid projection beam headlights for improved visibility and a premium look. The body and undercarriage are absolutely flawless, showing zero rust and exceptional care throughout its life. The only item this truck will need in the near future is a replacement set of tires, which we will handle at straight cost depending on the buyer's preference, whether that is an aggressive mud-terrain setup or a more versatile all-terrain design. At that time, we will also perform a courtesy front-end alignment and complete suspension re-torque. With its extremely low mileage, excellent one-owner history, proper service and maintenance, and professionally installed upgrades, this lifted Cummins Ram is an impressive combination of capability, style, and reliability. Price does not include \$0 processing fee
