Exterior colour: —
Interior colour: Black
Body type: Truck
Fuel economy: — city / — highway MPG
Dealer: Davis Auto Sales, Richmond, Virginia 23237
Dealer phone: (804) 271-0030

Dealer notes

COMING SOON 1987 Chevrolet V20 4x4 Squarebody Truck. Big-block, regular cab, long bed. This truck was originally a V10 and has been upgraded with 8-lug, three-quarter-ton axles. It has a very straight, clean body and appears to have no rust underneath. Overall, this is a very good specimen that was in the process of being restored. It features upgraded exhaust with headers, a 4-inch lift, and 35x20 tires and wheels. The truck could use a few light cosmetic items, such as some cleanup of the wiring inside the cab. Some of the gauges are also not working properly. It has an extremely nice late-model Chevrolet seat that actually seems to fit well, but it needs to be properly installed or removed and replaced with a standard seat. You may ask, why have we not done that yet? The reason is that properly installing the late-model seat would require drilling additional holes in the floor, which would not be necessary if someone ultimately wants to change it back to a different style of seat. For that reason, we have left it as-is for now. The truck also needs a spray-in bedliner, and aside from that, there are just some normal, small, nickel-and-dime items here and there that could be addressed. We will be continuing along with this truck through our restoration process, which is extremely far behind as we speak, but we would be happy to accommodate selling it exactly as it sits or completing further upgrades. This is a very solid Squarebody with a great foundation and plenty of potential to take it in virtually any direction the next owner desires. Price does not include \$0 processing fee
