Dealer notes

2002 Ford Excursion Limited lifted 4x4 diesel. Yes"this is not only a 7.3L Power Stroke turbo diesel, but also an extremely rust-free specimen. As shown in the photos of the rocker panels and bottoms of the doors, there is virtually no rust. The truck is believed to have originated from Texas, which would help explain its exceptional condition. This unit features a 10-inch suspension lift with dual front Fox shocks, a dual steering stabilizer system, upgraded track bar, and a replacement drag link. It sits on 40-inch Toyo Mud Terrain tires mounted on 22-inch Fuel Off-Road black and milled wheels. Additional upgrades include Warn front hubs, dark tinted windows, Road Armor front and rear bumpers, LED fog lights, and a winch system. It also has aftermarket headlights, a billet grille, Livewire tuner system, Pioneer stereo, quad A-pillar gauge setup, MBRP upgraded exhaust, rear entertainment system, side steps, updated 2008-style mirrors, WeatherTech floor mats, coolant filtration system, cold air intake, powder-coated replacement turbo pipes, and upgraded heavy-duty batteries. Surprisingly, this unit is extremely dry underneath and not leaking oil like many others. The only noted negatives are some clear coat fade beginning on the hood, roof, and bumpers. Even if you wanted to return this vehicle to stock, finding an example this clean and rust-free is nearly impossible today. Freshly serviced with some recent maintenance completed, including tie rod replacement and alignment. Price does not include \$0 processing fee
