Dealer notes

THIS VEHICLE IS OFFSITE!! 2001 Pontiac Firebird Trans Am WS6 "45,521 Original Miles! This is an exceptionally clean, collector-quality Trans Am WS6 with just 45,521 original miles and an impressive list of performance upgrades. This car came from a private collector who maintains some of the cleanest, best-preserved vehicles we have ever had the opportunity to acquire. There are no shortcuts on this car, and its overall condition reflects the care it has received. The exterior is protected by a 10-year ceramic coating, helping preserve its finish while adding a deep, glossy appearance. The suspension features adjustable Viking coilovers at all four corners, paired with a set of Fiske (5000\$) wheels. We also have the original wheels available, giving the next owner the option to return the car to its original appearance. Under the hood, this WS6 benefits from Texas Speed Stage 1 camshaft and cylinder head upgrades, complemented by a Borla exhaust system that delivers an incredible sound. Power is sent through a T56 six-speed manual transmission, making this Trans Am an especially exciting car to drive. The WS6 package already gives the fourth-generation Trans Am an unmistakable presence, and these carefully selected upgrades take its performance and personality to another level. With its low original mileage, collector ownership history, upgraded suspension, performance engine modifications, and desirable manual transmission, this is a special example for the enthusiast who appreciates a properly cared-for, tastefully modified American performance car. Be sure to watch the attached video and listen to this car run for yourself. The sound is absolutely incredible, and this Trans Am deserves to be heard as much as it deserves to be seen. Contact Davis Auto Sales for additional information or to schedule Viewing it is kept in a climate Price does not include \$0 processing fee
