Dealer notes

1997 Allegheny Power Product 24-foot dual tandem trailer. Features a 20-foot flat deck, 96 inches wide, with a 4-foot dovetail and drop-down ramps. This dual tandem equipment trailer was repainted not long ago; the boards are in acceptable condition and it has a good overall appearance. The tag shows an empty weight of 8,000 lbs and a GVW of 24,000 lbs. The brakes have been chambered; we are unsure if they were removed or could be reused. It was only used around a farm and currently pulls, moves, and operates as it should, just without brakes. Originally an air brake trailer, it does have a pintle hitch, and the jack crank works and has been replaced. Sold as-is—feel free to check it out any way you'd like. We do have a clear title. Price does not include \$0 processing fee
