Dealer notes

Chevrolet C10 Hot Rod/Rat Rod Short Bed. This unit has a well-built 383 small-block under the hood that sounds amazing and makes great power. It has a fresh transmission with a B&M ratchet shifter, new Cooper tires, new brakes, and extremely nicely finished rally wheels. We have a couple of additional C10s in process, but we do not currently have anything else for sale. If you're interested in one of the trucks we're working on, just know that we're a few months out. This truck also has new suspension components, and even though it has a patina look, the driveline components are rather beefy. This unit is a true street-rod-style build. Please check with your state regarding registration and legality as it pertains to exhaust, emissions, gauges, and other applicable items. It is equipped with Flowmaster exhaust, CalTrac traction bars, a fuel cell, electric fuel pump, Indian blanket seat cover, electric fans, and the list goes on. This unit has more than the asking price invested in just the engine and transmission, and it performs extremely well. It sounds great, gets down the road extremely strong, and is a very cool toy.
