Dealer notes

2001 GMC 3500 Duramax Diesel 4x4 Dually "One Owner. For those who don't want DPF systems and all of the newer emissions-related complications, this low-mileage truck is exactly what you've been looking for. Not only is it an amazing find, but it is also a true one-owner, garage-kept, rust-free 6.6L Duramax Turbo Diesel Quad Cab 4x4. Be sure to watch the video. This truck has never had any undercarriage paint or undercoating applied and does not have a single speck of body rust. The injectors were replaced approximately 10,000 miles ago with genuine Bosch injectors, and the only other repair ever performed beyond routine maintenance was the upgraded transfer case pump rub fix. This truck is loaded with options from top to bottom and remains completely bone stock, with the exception of an upgraded air filter under the hood. It features four-wheel drive, a flawless non-smoker interior, has never been used off-road, and includes a spray-in bedliner with a gooseneck ball. The auxiliary fuel tank shown in the bed will be removed prior to sale. From top to bottom, inside and out, there is simply nothing to complain about on this truck. With its low mileage, impeccable ownership history, and exceptional original condition, it is truly a dream come true for anyone looking for one of the cleanest early Duramax trucks on the market. Call to schedule a viewing, as this truck is stored indoors and may be located offsite. Price does not include \$0 processing fee
