Dealer notes

BVC XZ250f Trike 3 Wheeler ATV Conversion. We are currently unsure of the bike model year. Originally a YZ 250F, this was converted to a three-wheeler using the BVC kit. Which consists of a swingarm, triple clamps, subframe and all of the parts that are necessary to transform a bike into a trike. This unit has electric start FMF pipe bead Lock wheels with Hoosier tires upgraded cams and premium valves. Pro taper handlebars ODI grips jet lab Carb tusk oil filter cover and much more. This bike was purchased in a package purchase with some other ATVs and ATCs for our collection, but it does not fit our forte so it is up for sale. This thing is mean and fast one of the fastest things you will ever possibly ride puts a 250 R trike to shame. Dyno Video -- <https://youtube.com/shorts/gHvrn-wNKIk>
