Dealer notes

This 2025 Chevrolet Silverado 1500 Custom 4x4 SEMA show truck was built in-house by our team in collaboration with Mickey Thompson for SEMA 2025, with no expense spared and meticulous attention to detail throughout. Every suspension and undercarriage component was professionally powder coated in orange to match the stripe theme and installed without marks, scratches, or nicks. The truck features a bulletproof 12-inch suspension lift with a coilover conversion and remote reservoir system, custom color-matched traction bars, and clears massive 40-inch Mickey Thompson Baja Pro XS tires mounted on Mickey Thompson wheels with bronze simulated beadlock styling. Additional highlights include dark tinted windows, a polished rear driveshaft finished to a chrome-like appearance, fully functional four-wheel drive with proper driveline geometry, power retractable hideaway steps, and a BedSlide system installed for easy access to the bed—originally used to display a custom-built ATV at the show. With under 1,000 miles, this Silverado still presents like brand new, runs and drives exceptionally well, and is remarkably solid on the road with impressive power and handling. The stripe package consists of decals and can be easily removed if desired, making this a rare opportunity to own a virtually new, fully sorted SEMA-built truck with zero issues and no wear.
