Exterior colour: Oxford White
Interior colour: Medium Light Camel
Body type: Truck
Fuel economy: — city / — highway MPG
Dealer: CarLux, Waukegan, IL 60085
Dealer phone: 847-999-3988

Dealer notes

The 2019 Ford F-150 XL 4x2 SuperCab arrives with no accidents reported on CARFAX, one owner since new, and a documented service history, and the photos tell the rest of the story: this is a purpose-built work truck that spent its life doing exactly what F-150s are made for. The 3.5L V6 EcoBoost paired with a 10-speed automatic with tow mode and a Class IV trailer hitch delivers the kind of broad, confident pulling power that serious operators depend on every single day, and the fully boxed steel frame with 6,900-lb GVWR package and LT245/70R17 all-terrain tires mean this truck was built from the factory floor to handle real commercial loads without asking for favors. Oxford White, clean, ready to work. Step up into the dark gray cloth SuperCab interior and everything about this truck says it was set up by someone who understood the difference between having a work truck and having the right work truck. The XL Power Equipment Group, cruise control, SiriusXM, reverse sensing system, rear view camera, Sync, manual driver lumbar, air conditioning, a tilt and telescopic steering column, and a 60/40 fold-up rear bench give the cab everything a working driver needs across a long day without anything that gets in the way. Outside, the real story is the aftermarket upfit: dual lockable side tool boxes and a full liftgate mounted at the rear, which means this F-150 doesn't just haul materials, it organizes them, secures them, and delivers them with the kind of operational efficiency that translates directly into fewer trips and more billable hours. Pre-collision assist with automatic emergency braking, AdvanceTrac with RSC, dynamic hitch assist, trailer sway control, hill start assist, fail-safe cooling system, and auto start/stop technology round out a platform that protects both the driver and the investment through hard commercial use. A one-owner F-150 XL EcoBoost with this service history, this upfit already installed, and a clean accident record is a genuinely turnkey opportunity for any operator who knows what it costs to source and upfit a truck from scratch. Come see it at Carlux in Waukegan and put it to work across Chicagoland before someone else does.
